Presentation of Current Research Projects

GRK 2696: PIs (Wuppertal)

In the interdisciplinary Research Training Group (RTG) 2696 of the IZWT, researchers from the history of science and technology, philosophy of science and sociology of science conduct joint research on the dynamics of continuities and change in science and technology since 1800. In this session of the IZWT research colloquium, six of the RTG's members will present their current research projects.

16:30 - 16:50 **Radin Dardashti**
Modelling Scientific Reasoning

16:50 - 17:10 **Thomas Heinze**
Field size in Germany's Excellence Initiative

17:10 - 17:30 **Ralf Krömer**
Duality throughout the *Jahrbuch über die Fortschritte der Mathematik*

17:30 – 18:00 *Break*

18:00 - 18:20 **Thomas Morel**
